### **DISCUSSION**

- Birth Registrar: Birth registrar position currently under HIM. Move of position to W&C department being explored.
- Trend Reports
  - Brenda reviewed and circulated the attached reports. See attachments.
- Staffing (Maternity, L&D)
  - Pat reported out on maternity staffing.  
Three nurses starting (no start date); one starting middle of February
  - Jeanne and Loretta reported status of orientees A. Luviano RN. Travel RN Vanessa Fairfield working out well. Jeanne actively interviewing and gave an update about others
- Performance Measures:
  - C- Section rates discussed.
- RL Safety Event Report:
  - Maureen reviewed IV PCA pump error occurring in December. A non standard concentration of medication was ordered. The nurses when programming the pump, selected the wrong concentration of the correct medication. The patient received a higher dose of medication for a period of time and did not display signs/symptoms of opioid overdose. Discussion occurred regarding need for education review on PCA pump programming. Loretta suggested including in RN annual competency program for 2019.
